Date of sale: _____ Litter Registration #: _____ Puppy DOB: _____ Sex: _____

Color: _____ Purchase Price: _____ Microchip #: _____

Please read the following agreement. If you have any questions, please ask for clarification.

To the best of my knowledge, this puppy is in good health at the time of delivery. Buyer has three working days to have the puppy checked by a licensed veterinarian. **Failing to do so will void your health guarantee.** If the veterinarian discovers the puppy to be unsound, it can be returned within the three day period for a refund of the purchase price or replaced with a puppy of equal value at the breeder's discretion. This is provided the puppy is returned with a letter from the examining veterinarian stating in what respect the puppy is unsound. **No refunds after the three day warranty period.**

Breeder will not replace or refund for any of the following reasons: allergy, mortality, landlord's disapproval, family disagreement or any other problems **not** related to health. Nor for a puppy's illness caused by neglect, exposure to weather, injury, choking, poisoning, etc.

No warranty or guarantee is made to the disposition, life-span, size, color, show quality, or **breeding** quality/ability of any puppy.

Breeder will not be liable for any expenses including but not limited to any veterinary bills or other expenses. Should a licensed veterinarian diagnose the puppy with a life-threatening birth defect, or genetic defect, the Breeder will replace the puppy, limited to 1 year from the date of purchase.

This guarantee is null and void upon any evidence of abuse or neglect, or if the buyer fails to have yearly checkups with a qualified veterinarian. Proof of said maintenance must be furnished upon request of breeder.

No guarantee is given for any kind of worm, coccidiosis, or giardia. These parasites are all too common to pups and can be contracted from your water, soil or boarding facility. Your puppy has been wormed frequently from two weeks of age until your possession. It is your responsibility to continue to worm your puppy and check for parasites. Your pup should be wormed every two weeks until it is placed on a monthly heartworm preventative (Required). Internal flea preventatives that contain pesticides, like Capstar, are not acceptable and voids your guarantee. Frontline, Advantage, Revolution, or Sentinel is recommended for flea prevention.

This puppy has been vaccinated and wormed on the following dates:

Parainfluenza, Parvovirus, Adenovirus Type 2, and Distemper: 1st Shot: _____ 2nd Shot: _____

Wormed: _____, _____, _____, _____, _____

No guarantee is given for hypoglycemia (low blood sugar). This condition is not hereditary and is very preventable.

This guarantee is non-transferable. Please be conscientious about vaccinating your puppy properly. Over vaccinating can cause long term problems. Vaccination related deaths are not covered under this warranty. This puppy has been vaccinated for parainflueza, parvovirus, hepatitis, and distemper and dewormed properly from birth.

AS THE BUYER OF THIS PUPPY, OR HIS/HER REPRESENTATIVE, I HAVE READ, UNDERSTAND, AND AGREE TO THE ABOVE GUARANTEE. Acceptance of puppy or puppies is acceptance of this agreement.
